SUMMARY

Seasoned Mid Level Frontend Developer with 4+ years of expertise in crafting responsive, high-performance web applications. Proficient in React, TypeScript, and modern CSS frameworks, with a strong focus on accessibility, UX optimization, scalable architecture, and effective problem solving. Spearheaded a project that improved load times by 40%, resulting in a 25% increase in user engagement. Skilled in mentoring junior developers and working with cross-functional teams to deliver innovative solutions.

WORK EXPERIENCE

ZMC Technologies Limited — Software Engineer (Frontend) September, 2025 – Present

- Led the development of an advanced AI-powered design system using React and WebAssembly, resulting in a 40% reduction in design-to-development time and a 25% increase in overall team productivity.
- Orchestrated the migration of a legacy monolithic application to a microservices architecture using Next.js and GraphQL, improving application performance by 60% and reducing server costs by 35%.
- Mentored a team of 2 junior developers, implementing a comprehensive code review process and leading weekly knowledge-sharing sessions, which resulted in a 30% decrease in bug reports and a 20% increase in code quality metrics.

Interlink TechSoft Limited — Ass. Software Engineer (Frontend) May, 2023 – August, 2025

- Engineered a real-time collaboration feature using WebRTC and WebSockets, enabling simultaneous editing for up to 100 users and increasing customer engagement by 45%.
- Implemented advanced state management techniques using Redux Toolkit and React Query, reducing application bundle size by 30% and improving load times by 50% across all devices.
- Pioneered the implementation of automated testing practices, achieving 90% test coverage with Jest and React Testing Library, resulting in a 70% reduction in post-release hotfixes and enhanced overall product stability.

ThinkyStorm — Junior Frontend Developer November, 2021 – April, 2023

- Develop a responsive, cross-platform mobile app using React Native and Expo, leading to a 200% increase in mobile user acquisition and a 4.8-star rating on both the App Store and Google Play.
- Optimized front-end performance by implementing lazy loading, code splitting, and service workers, improving the application's Lighthouse score from 65 to 95 and reducing bounce rates by 25%.
- Collaborated with UX designers to create an accessible component library adhering to WCAG 2.1 AA standards, increasing the application's accessibility score by 40% and expanding the user base by 15%.

PROJECTS

Real-Time Collaboration Tool

www.aetherpad.vercel.app

- Built a full-stack, Google Docs–style editor using TipTap, custom extensions, templates, tables, and rich formatting tools. Enabled real-time collaboration with cursor tracking, synchronization, and conflict-free editing for multiple users.
- Added comments, threads, mentions, and notifications to enhance team communication.
- Designed organization workspaces, user profiles, authentication, and an invite system for multi-tenant environments.
- Integrated export options (PDF/HTML/TXT/JSON) and deployed the platform with Next.js 15, TypeScript, Tailwind, and Shadcn UI on Vercel.

SKILLS

- Core Technical Proficiencies: React.js, Next.js, Vue.js, Astro, CSS, modern CSS frameworks, SCSS, Styled Components, Less, Webpack, Babel, JavaScript (ES6), TypeScript, Redux, Apollo GraphQL, Storybook, Jest, React Testing Library, Cypress, and Jasmine.
 - Component-Based Architecture Design
 - Progressive Web Application Development
 - Website Performance Optimization
 - Implementation of Unit and Integration Tests
 - Responsive, Mobile-First Web Application Development
 - Experience in Designing and Implementing RESTful APIs
 - Strong Collaboration Skills with Backend Developers
 - Familiarity with Modern Frontend Development Tools like Webpack and Babel
-

COURSES / CERTIFICATIONS

Web Development Powered by Programming Hero	November, 2021 – August, 2022
Next-Level Web Development with Programming Hero	March, 2023 – November, 2023
CSE Fundamentals Offered by Phitron	March, 2025 – November, 2025

EDUCATION

Bachelor of Science in Computer Science — Presidency University

May, 2022 – June, 2026

- Graduated: June, 2026 (expected)
